*Bachelor Degree in Computer Engeeniering  
Lamerd Payam Noor*

### ABOUT ME

I'm Mohammad. I am a software engineer from Iran. My web programming was started with PHP language. After that, I have started working with the Laravel framework and I have created some websites and APIs.

In order to make progress on front-end development, I have chosen React library. Being an excellent React developer is my current goal and I'm currently working on this ambition.

Also, I enjoy learning cutting-edge technologies as well as self-improvement. I have some Certificates of Web development courses which are available online and their links are available on my linkedin page.

### My Experiences

2021 Freelance Web Developer on Khat Arzesh co.
